- Automatic BST/GMT 1 hour time change
- Factory set clock and date
- Easy to use overrides (advance and boost)
- Fits on industry standard backplate
- Easy to use and quick to install

1 Channel Multi Purpose Programmer

The CTC Controls range of programmers are a feature packed range, offering flexibility and reliability for use in any domestic heating and hot water installations.

The CTC EZIPROG 1 is a single channel multi purpose programmer, designed primarily for timed control of your heating and hot water. Ideal for use with a combination boiler or a single heating zone. It can also be used in conjunction with an existing programmer to control additional heating zones or for when additional hot water cylinder control is required.

The blue back light on the programmer can be switched permanently on or off, depending on the user's preference. When the back light is off, it can be lit at the push of a button and will then turn off again. The programmer can be configured for 24 hour, 5/2 day or 7 day operation, and has the flexibility of up to three on/off timings per day.

Technical Data

1 channel programmer	EZIPROG 1
Independent time control channels	1
Power supply	230V AC, 50Hz
Operating temperature	0°C to 35°C
Total switch rating	230V AC, 6(2)A - Volt free
Battery type	Lithium Cell CR2032
Enclosure	Protection: IP30
Plastics	Thermoplastic, flame retardant
Insulation class	Double
Wiring	For fixed wiring only
Backplate	Industry standard
Dimensions	140mm x 87mm x 37mm
